VOLUME 34—No. 32

HUNTINGDON, TENNESSEE, FRIDAY, SEPTEMBER 2, 1921

\$1.50 THE YEAR

HUNTINGDON HIGH SCHOOL OPENS MONDAY

A Strong Faculty—A Teachers' Training School Added—Prospects Are Fine

The year 1921-22 session of the Huntingdon High School will begin Monday, September 5, at 8:30 a. m. The faculty for this year is as follows: D. W. Moody, principal and teacher training courses; Mrs. E. Love Mebane, English and Latin; Miss Rachel Doxey, home economics and French; Mr. George L. Garrett, mathematics and history; Miss Lorraine Sullivan, eighth grade and commercial courses; N. J. Enoch, sixth and seventh grades; Miss Happy Demoss, fourth and fifth grades; Miss Nelle McCollum, second and third grades; Mrs. Floyd Joyner, first grade; Miss Glenn Hopkins, music; Miss Mary Leach, expression. Each of these teachers has been chosen for special fitness for the work assigned. The principal and four other members of the faculty attended summer sessions of professional schools and took work in their special fields.

In addition to the work done last year, a teachers' training course will be added. To receive state aid for this work it is necessary that at least 10 pursue the courses. Students who have had two years of high school work are eligible. Graduates are especially urged to return for this special training. Details of the work will be supplied later.

Tuition in the high school is free to all residents of Carroll county, but elementary school students who live outside the district, will be charged tuition for the time attended.

The school funds for 1921-22 will be distributed on the basis of attendance for 1921-22. It is, therefore, very essential for the financial welfare of the school as well as for the welfare of the child that attendance be regular. Enter your children the first day and keep them in school every day until the close. A very large per cent of the failures of the school is due to irregular attendance.

Parents and friends of the school are cordially invited to attend the opening. Encourage the faculty and students by your presence.

D. W. MOODY, Principal.

Annual Meeting

The annual meeting of the local W. C. T. U. was held Wednesday afternoon of last week at the home of Mrs. R. F. Dilday. A business session was held. The following officers were re-elected: Mrs. J. R. Carter, president; Mrs. J. E. Garver and Mrs. J. W. Murphy vice-presidents; Mrs. J. F. Neely, corresponding secretary; Mrs. R. F. Dilday, recording secretary; Mrs. J. B. Gilbert, treasurer. The superintendents of departments will be elected soon. The treasurer's report showed that the union has made a net gain of thirteen members during the past year.

TWO MILLIONS FOR SCHOOLS OF STATE

Of This Amount Over Quarter Million Went to the High Schools of State

For the year ending June 30 1921, there was appropriated for the schools of the state \$2,082,850.99, according to the report just issued by State Superintendent J. B. Brown. Of this amount \$254,266.32 went to the high schools, \$386,918 to the rural school fund and \$111,173.10 to the

state and federal vocational fund. Over \$1,000,000 was appropriated to the general education fund. The amount appropriated as supplements to salaries of county superintendents during the year was \$32,527.50.

The amount of school funds for the four large counties of the state follows: Davidson, \$105,850.85; Shelby, \$133,755.18; Knox, \$80,582.97; Hamilton, \$75,812.60.

There was appropriated to the East, West and Middle Tennessee Normals \$64,569.44 each, while the Cookeville Polytechnic received \$52,433.40 and the A. and I. state normal received \$32,996.16. This makes the grand total paid elementary, high and normal schools of the state \$2,362,047.87.

Abby—Haynes

Frank O. Abby and Miss Hall's Haynes, daughter of Mr. and Mrs. Priest Haynes, highly esteemed people of the Clarksburg community, were married at the court house Monday by Judge Wilson Enoch. Mr. and Mrs. W. S. Scott accompanied them. Mr. and Mrs. Abby left immediately for their home near Kansas City where the groom is engaged in farming and stock raising.

CONGRESS TO REST NEARLY THIRTY DAYS

Senate and House Have Recessed for a Month's Vacation and Much Needed Rest

The congress of the United States has recessed for nearly one month. The vacation will end September 21. The members of both houses will visit home, take a needed rest and find out what their constituents are thinking about.

Congress has been in extra session nearly five months and but little has been done along the way of carrying out the volume of promises made the people in the last campaign. It is safe to say the people will have something to say to the members about their failure to function in the interest of the masses.

The politicians and office-seekers will also have much to say and will, no doubt, take up much of their time. Offices are not being filled as rapidly as the fore-said office-seekers think they should be and a little explaining along this line will no doubt be urged. In fact it is questionable as to whether or not thirty days will really be days of rest and recreation to the congressmen if spent at home among their constituents.

RATHER BOLD EFFORT AT JAIL DELIVERY

Father and Son Held in Jail Here, Father Released, Boy Remains for Trial

Hunter Capps, a Benton county citizen, created something of a sensation in jail circles here last week trying to put on a stunt that might have resulted in a general jail delivery.

His son, John Capps, was in jail, having been picked up at Hollow Rock Junction some time ago for riding a freight train and turned over to Sheriff Aden. Whisky was also found on the young man's person which added another offense more serious than hopping trains.

The elder Capps came down from his Benton county home to see his son and brought a long box of good things to eat for his son. The Sheriff, as is his custom, opened up the box for investigation. The upper part of the box was filled with peanuts, ready for use, candy and other eats. Under this was another box and in this box was found files, saws and almost a complete outfit for burglary use or cutting prison bars and escaping from jail.

Mr. Capps was taken in charge by the sheriff and placed in jail with his son. Mr. Capps claims that he did not know what was in the box as it was prepared by the boy's mother or other members of the family.

Saturday a number of prominent citizens from Camden came over and went on the bond of the father and he was released from jail and returned home. His bond was fixed at \$1,000. Hunter Capps is said to be a good citizen and had some real fine people here in his interest. The boy, however, is rather wild, there being two or more indictments against him in his own county.

Randall Algea Dead

W. R. Algea, who lives near town, received a telegram Wednesday morning bringing the sad news of the death of his father, Randall R. Algea, which occurred the night before. The message was from U. S. Algea, a son at San Antonio, Tex., with whom Mr. Algea resided. The message gave no particulars. Mr. Algea left on the 11 o'clock train for San Antonio to attend the burial. Randall Algea, until a few years ago, when he went west, was a well-known and highly esteemed citizen of this county, and has many friends here.

GET YOUR EXHIBITS FOR THE BIG FAIR

Its Everybody's Fair and Everybody Should Help to Make It a Big Success

That the Carroll County Fair is going to be a glorious success is now a foregone conclusion. I have just spent six hours hard work going over the premium list of the various departments before handing them to the printer, and I have no hesitancy in saying that it is far beyond any premium list of former years. It is now up to the people of Carroll county to put in the exhibits and complete the success of the fair. Few people realize what it takes to get up and conduct a good county fair. To raise the money to pay the expenses, to decide on the premiums, advertise and get exhibits and attractions costs a lot of money and hard labor. Most of the work is gratuitous and is given by men and women who derive but little benefit out of the fair except the satisfaction of knowing that they helped some one else to have a good time and to learn something from the fair that will be a benefit to them in their future work.

This is your fair if you live in Carroll county. It is held for you, but if you do not put something into it or do not go, you get but little good from it. If your neighbors put in exhibits and you don't, they gain and you lose. They have the chance to see and learn the new ideas and methods and have good time and you don't. They add to their store of knowledge those things they learn from others and thus increase their comforts and capacity for money-making. Don't let them get ahead of you.

Determine right now that you are going to put an exhibit in the fair and that you and your family will be there every day, or at least one or two days, if you can't do any better. If you have "that tired feeling" it will be a good tonic. If you are ailing it will be better than medicine. If you are nervous it will lift the pressure. If you are worried it will dispel the gloom. If you have the blues it will cheer you up. Here's a specimen of an old friend's greeting, frequently heard at the fair:

"Hello, Jim or Jack." Delighted to see you! Glad to learn you are all well. Big crowd; dandy time, all here so we could get together ain't it? How's Bob and Jim and Mary and Susan? Wish they were

once more. Going to be here tomorrow, ain't you? Well, see you again. Good bye.

You'll be jolly every minute doing this greeting and seeing it done. You'll go back home with an outward smile and an inward tickle that will make you happier and heartier for a long time. Let's go. Remember the time—October 12-13-14-15.

Don't forget one big new feature at this year's fair. The Special Community School Exhibits. Begin now to get your school in line to win. Lots of more good things we would like to tell you, but space won't permit this week. Any question about the fair will be cheerfully answered if you write W. L. NOELL, Sec.-Mgr.

Pastor Get Call

Rev. G. M. Oakley, who has been pastor of the Royal Street Presbyterian church, Jackson, has resigned. The official board of the church with headquarters in Philadelphia, has called him to conduct a series of revival services in the various churches of that city. This work will require his entire time for several months.

MCKENZIE SCHOOL OPENED LAST MONDAY

McKenzie High School is one of the Best in the County and Has Strong Faculty

The McKenzie public and high school opened for the fall term Monday with Prof. H. P. Mullins as superintendent. Two new departments of work will be added this year, that of home economics and manual training.

The faculty for the year is as follows: Jeff D. Clark, mathematics and English; Mrs. Page M. Dinwiddie, Latin and English; Miss Blanche Daniel, eighth grade; Miss Eufala Gaskins, seventh grade; Clarence Edgar, sixth grade; Miss Lucile Coleman, fifth grade; Miss May McClure, fourth grade; Miss Willie Caldwell, second grade, and Miss Lucile Cude, first grade. Miss Caroline McAdams, who was first assistant to the teachers of home economics in the Johnson City schools the past year will be in charge of the new home economics department in the McKenzie school and teacher of history.

Mrs. Gwendolyn Baker Clark, as teacher of music, completes the faculty, which is an unusually capable one. This is Prof. Mullin's tenth year as superintendent. Many improvements have been made on the building and library, which will add to the efficiency of the work throughout the school.

A MOONSHINE RAID WITH FATAL RESULTS

Roy Hampton is Killed and His Father, Wiley Hampton, is Badly Injured

United States Marshal Charley King, of Jackson, and Luther Mancy and son and Ollie Dameron, of Henderson county, in a raid last Friday morning, killed Roy Hampton and seriously wounded his father, Wiley Hampton, in the eastern end of this county.

The officers were said to be raiding a still located between Clark's store and Dollar, and the officers claim that these parties, together with several others, were at the still and fired on them, and they returned the shots with fatal results.

Those who escaped claim that they were in a field pulling fodder and started to the spring to get a drink and were fired upon by the officers as they were leaving the field, a short distance from the still.

The officers returned to their homes and much excitement prevails in the community of the killing, and it is almost impossible to get a plausible statement of the facts in the case.

State warrants have been sworn out for the arrest of the revenue men, but so far no arrest has been made. The officers claim justification and are at their homes, but will resist, through the courts, coming to Carroll county for trial.

U. S. AND GERMANY SIGN PEACE TREATY

Based on Versailles Pact, But "Holding All Rights"—Repudiates League Covenant

The treaty with Germany which was signed last week in Berlin has been made public by the State Department. It puts into force the economic, reparations, military and various other provisions of the unratified treaty of Versailles but provides specifically that the United States shall not be bound by the covenant of the league of nations or by other enumerated parts of the Versailles settlement.

The declarations of the peace resolution are reaffirmed in the treaty and it contains in addition a blanket provision that any benefit which might accrue to this country under the Versailles pact is to be regarded as of full force. Germany's renunciation of her overseas possessions jointly to the big five powers is reaffirmed, as are the military clauses of the Versailles treaty, the sections relating to prisoners, reparations, finance, economic settlements, commerce, and abrogation of all other existing treaties between the two countries.

The United States holds to all in the Versailles pact that the administration judged advantageous to this country but refuse to assume any of the responsibilities prescribed under that treaty.

COUNTY PHYSICIANS HOLD FINE MEETING

Members of the Carroll County Medical Association Discuss Some Good Papers

The Carroll County Medical Association met at the court house Tuesday at 2 p. m. A good number of physicians were present. A paper on "Nervousness" was read by Dr. J. H. Williams, of McKenzie, also a paper on "The Attributes of a Normal Baby," was read by Dr. V. E. Massey, of Huntingdon. Everybody had a profitable time.

These meetings are of great value to those physicians who attend and take part in them. Every physician in the county should be an active member of this association.

Huntingdon Machine Works

Welding, Machine and Boiler Work---Plumbing and Battery Charging

Mill Supplies

Globes and Angle Valves,
Pipe and Pipe Fittings,
